Ike Envisions 70 Million Jobs' If Re-Elected

Raps Democrats On Education, Minimum **Wage Opposition**

WASHINGTON (P) - President Eisenhower's campaign foray into Kentucky and Ohio pointed up how he now is firing back at Adlai Stevenson despite a September assertion he would leave the replies to other Republicans.

In a nationwide television-radio address Monday night at Lexington, Ky., and in a speech during the day at Cleveland, Ohio, Eisenhower replied to his Democratic opponent on a good many points although he never once mentioned Stevenson by name.

The closest Eisenhower came to naming Stevenson was to allude to the Democratic nominee as an 'apparently confused candidate" on the issue of federal aid for education. That reference brought one of the biggest rounds of applause from the capacity crowd in the 15,000-seat University of Kentucky Coliseum.

Blasts at Democrats

In the Lexington speech Eisenhower also cut loose at the Democratic-controlled Congress - and the Republican rally he

Ex-Convict Sought In Shotgun Death

RICHMOND. Ind. (P) - Forty state troopers and 18 sheriff's deputies combed Wayne County early today in search of Thomas Moistner, 22, a nex-convict accused of the shotgun killing of his best

State Police said Moistner, of Indianapolis, abandoned his car in Hagerstown, Ind., about 20 miles west of here. He was believed to be armed with a 12 gauge shotgun. Road blocks were set up throughout the county. Two state police planes were to join in the search.

Moistner, Indianapolis police said, killed Thomas E. Scott, 17, Sunday night in Indianapolis after Scott had surprised him as Moist ner was about to rape a nude 15year-old girl.

A state police patrol car spotted Moistner's 1953 black Plymouth in nearby East Germantown early today after a breaking and entering was reported there.

The police pursued the car about seven miles into Hagerstown where the driver jumped from the where the driver jumped from the auto and headed into the bottomland near a creek.

Richmond is in east central Indiana, about five miles from the InCalender Ohio line.

She said Moistner, a roomer in ment Calendar Year Book.

Welcome, Kaiser Corp.

The Kaiser Aluminum & Chemical Co. already has won a host of friends in the estab lishment of its new basic refractories plans at neighboring Columbiana.

Kaiser's modern \$5 million factory is an asset to this entire district. The public, which inspected the all-aluminum building at Saturday's open house, marveled at the efficiency of operation in the new structure. Others were amazed how the industrial plant grew from a farmland in a short period of 14 months.

It only points out how many other ideal land tracts, here in Salem for example, exist for new industries. Salem has so much to offer and the Chamber of Commerce should shout it from the housetops.

This job of attracting new industries is not a seasonable thing. It is a task to be pursued the year through.

Newspaper Week

Once a year in the first week of October, the press of the United States borrows from the time it spends on good causes for others to call attention to its own good cause.

Newspapers do this for a reason rooted in the constituaional guarantee of press freedom. This is contained in the first of the ten amendments, which are known as the Bill of

Freedom of the press wwas not guaranteed to newspapers but to the sovereign people of the

The Bill of Rights, itself, was a compromise worked out between delegates to the Constitutional Convention of 1789 and popular opinion.

The delegates, it was felt, had been handpicked to reflect the vested powers. The Constitution they had framed, it was pointed out, would be acceptable to popular opinion only if it were amended promptly to express the popular demands summed up in the Bill of

This was done, and the result was the constituaional foundation on which American freedom was erected.

Newspapers as they are known now did not then exist. The publications that did exist had no great influence. But the early Americans who had endured high-handed oppression and had overthrown British rule sensed that their continuing freedom would be impossible if they lacked the right to read newspapers free from government license.

The ensuing evolution of the press was one of the major forces of the free enterprise system which makes th eUnited States uniqut. The system would be impossible without mass circulation of newspapers and other publica-

The more people learn about their common problems the more they want to learn. By keeping the press free from political control they keep themselves free from political domination.

They have guaranteed nothing to the press, it must be remembered, but the right to be free from legislation abridging its freedom. They do not guarantee its economic security, nor do they guarantee its freedom from their own judgment.

That is as it should be.

The chief aim of National Newspaper Week is to remind the people of the United States of a relationship that has been proved sound by time and is worth preserving wit eternal

Purse Independence

Skepticism says the odds are a thousand to one against success, but realism says it would be a great improvement if current efforts by both parties to step up the rate of small contributions paid off this year.

Financial independence from well-heeled contributors who can make or break parties by giving or withholding their contributions would make a drastic change in party structures and policies.

If the parties could count on drawing their support from millions of small contributors instead of hundreds of large ones, they could quit worrying about striking lucrative bargains with the possessors of bankrolls. They would not be for sale to the highest bidders. But no matter how well publicized, no matter how aggressively the drives for small contributions are staged, they have no prospect of success, at least not at this time'.

Even at the local level, citizens do not identify themselves that closely with the operation of political parties. It would be better if they did, but if they did there would be no need to wworry about their indifference to polities.

The polls would have t okeep open four hours on election day to give the "investors" a chance to protect their invesments, no matter how small.

Restaurants serve steaks four different ways -rare, medium, well done and tough.

THERE IS FURTHER TROUBLE with the

"Central! Central! What bappened to my "I'm getting that Galveston, Texas, number

for you, sir." "I never said a word about Galveston. I wanted London or Paris."

"Dunston & Harris?" "No! Something's the matter. We don't seem to hear each other clearly."

"Are you speaking distinctly into the transmitter?" "Yes, but I'm so far ahead of you I'm using my London accent."

IT IS THIS CORNER'S view that if the fourday work week ever comes, it will be tough on women. . . The wives of America know what it means to have a man loafing around the house half the time.

The rodeo is on in New York and cowboys are having their annual struggle not to be

thrown by a taxi or subway train. Mike Todd who came to New York not so many years ago with a concession at the Flushing Meadows Fair, went into Broadway with "Star & Garter," made a lot of money in musicals and is now a colorful figure in movies, is reported thinking of conquering new worlds in the circus business. . . . He has been in conference, it is said, with the Ringling

people. The first phone talk between New York and Europe by telephonic cable just took place. . . . This should serve to cut down John Foster Dulles's air travels.

.. A NATIONAL SURVEY reveals that the penmanship of college students astounds professors. . . . It astounds everybody who sees it, say we, and makes you wonder what goes on in the grammer and high schools which permits the kids to reach college age without being able to whip up a legible letter.

Here Tomorrow!

YOUNGSTOWN, M-Mrs. Jenny

came the magic that made possible so wonderfully different a Ford. In the toughest on-theroad tests ever given to a car, this "Inner Ford" demonstrated that a '57 Ford rides you sweet and low ... that it takes the bumps without a bobble, the curves without the pitch ... and, that in power, it "takes nothing from nobody!" Nothing on wheels hurries, handles or holds up like a Ford!

Anew kind of FUKD with mark of tomorrow

You're in for a thrill when you see this new knockout named Ford! But save your superlatives till you drive it! That's where the fun really starts.

It's fun just knowing that others who see you wish they were you. For you're commanding the longest, lowest, heaviest, biggest car ever to sport such a low price tag. There's head room to spare for a new fall bonnet...stretch-out space for a "Daddy Longlegs."

You'll find that the tough and ready new "Inner Ford" is built to take the roughest road you'll care to travel. New outboard rear springs and ball-joint front suspension let Ford take the turns without the tilt. New swept-back control arms help take bounce out of bumps.

Best of all, Ford's library-like quiet is built in. And the new "Inner Ford" is why. For never before in

Ford's field has there been a body with so much extra bracing, so firmly anchored to its foundation. And you can choose from three big Silver Anniversary V-8's with up to 245 horsepower. There's also a new Mileage Maker Six with 144 horsepower, the most modern Six in the industry.

You can pick your Ford tailored to your desires and your budget, too! Choose from nine over-17-foot Fairlane or Fairlane 500 models or from five over-16foot Custom or Custom 300 models. Or take your pick from Ford's five longer, lower, new station wagons. Whichever model you select, you'll get a car that's been re-invented from the wheels up!

So there's the new kind of Ford. Big! Gracious! Spacious! A luxury car true—but one that any new-car buyer can easily afford. Come in! See what wonder-cars you can buy now at low Ford prices.

IN TWO NEW SUPER SIZES OVER 16 FT. PLUS 5 NEW MODELS IN THE STATION WAGON SERIES

The Fairlane Fords for '57, like the Fairlane 500 models,

AT HOME WITH YOUR

If your home is like most around the country, everything is now out of its summer "wraps," the furniture has been rearranged, and perhaps something new has been added in the form a new cabinet or coffee table that Dad made himself.

This means it's time for your camera to go to work indoors, aand there's no better time than now to create a picture story of your home. (Your insurance man will tell you, by the way, that obtaining a complete picture record of your home is an extremely wise precaution.)

The best way to take your pictures is on color film, so that you catch the real beauty of your rooms and furnishings. You can use Kodacolor film for color snapshots; or Kodachrome or Ektachrome for slides. The new Kodak color films are as easy to use as black-and-white. You'll find instructions included with every roli of film.

Come in any time for your Kodak Film, flash bulbs and other supplies. If you have any questions as to exactly what pictures to take and how to take them, we'll be glad to answer

Yankees Favored 7½To 5To Win World Series Greenford Loses To Jayvees 33-19

To Pitch In Openers

BROOKLYN (P-The well-rested Dodgers are supposed to be tired," New York Yankees ruled a stout 7½ to 5 choice to dethrone the day of the season, and the manner champion Brooklyn Dodgers in the in which they did it, was the best 1956 World Series which starts Wednesday at Ebbets Field but the National Leaguers had plenty of supporters, too.

Bobby Bragan, who gained stature as a manager even in Pittsburgh's three season-ending losses to Brooklyn, picked the Dodgers to win-

"All they have to do is play the kind of ball they played against us in those last three days," Bragan said. "Those guys were simply great."

A major league umpire, who will remain unidentified even though he will not work in the series, thought the Dodgers would win "because they are keyed up right now and they have the momentum."

Series Notes

BROOKLYN (#)-"Expert" Ted Williams, Boston Red Sox slugger, said today he likes the New York Yankees over the Brooklyn Dodgers in the World Series opening Wednesday.

"I think the pitching of Don Larsen will make the difference." said Williams. "I know he gave me all kinds of trouble. I got only a couple of hits off him last season."

From Brooklyn scout Al Campanis:

them. Their pitching is not as stretch, will get the call. Alston ern California. had in the past."

L. W. Nash Company

East Palestine, Ohio

Six cars started out on a race over 13,000 miles of land and 8,000 miles of water (this part of it on ships.) They weer in a race westward from New York to Paris.

This was, don't forget, in 1908 and you can imagine the kind of roads they had to use. They drove acros the U.S., Japan, Manchuria, Siberia, Russia, Poland, Germany and France, fighting blizzards, failures, fallen bridges, deserts and tundra. The three French cars never did finish. More than five

months after it set out, the German car reached Paris. Four

days later, the American car arrived, and the Italians came in six weeks after that. But the Germans had been given a 15-day penalty for breaking the rules, and the Amercians a 15-day credit for observing them, so the Americans were declared the winners. The toughest of all races had taken them 168 days.

Such toughness was unusual in those days, but toughness is a byword of today's highly competitive car manufacturnig. Durability is built into today's cars and you'll find the pick of them set out on our lot. That's the secret of buying a used car, to get the quality the maker first put into it, at a knock-

down price. And that you'll find, is what we have. For instance - Look over this sparking 1955 Cadillac "62" Four-Door Sedan. It's exclusively equipped with power steering, power brakes, autronic eye, two-tone blue finish, and has low milege. Offered now at only \$3595.

Once upon a time (not so long ago) a manufacturer made a six-wheeled car called a Sexauto (no remarks please), and another maker turned out a vehicle you drove from the back seat. They'll be in next week's column.
